

Good afternoon [REDACTED]

Feb. 09/2023

In response to your inquiry at 304 Kathy Avenue, Q&D is currently under contract with the City of Yerington for the sewer and water rehabilitation project. As a part of this project Kathy Street was included to receive an updated sewer and water system to replace the outdated system that was in place.

The new system includes new sewer mains and services to the existing clean outs on Kathy as well as a new water main and water services to the new water meters. The new mains are placed in the existing roadway that is also currently scheduled to be fully replaced with new asphalt once weather permits

Currently Kathy Street is on Q&D's paving schedule for end of March to early April 2023 to get replaced and completed weather permitting. Should you have any additional questions or concerns please feel free to reach out at any time..

Thank You,

Corey Comeaux | Project Manager
