Section 50-36. - Establishment of Neighborhood Design Districts.

This Section establishes the following Neighborhood Design Districts as overlays to residential subdistricts within the Roxbury Neighborhood District. The Neighborhood Design Districts are established to protect the historic character of these neighborhoods, which give Roxbury its unique architectural character. While development of housing within these Neighborhood Design Districts is encouraged, new construction or rehabilitation which preserves and complements the character of the existing housing stock will enhance the historic quality of these neighborhoods. For applicability of the Design Component of Small Project Review to Proposed Projects in Neighborhood Design Districts, see Article 80. All use, dimensional, and other provisions applicable to the underlying residential subdistricts are applicable within the Neighborhood Design Districts. The Neighborhood Design Districts are located as designated on the maps establishing the Roxbury Neighborhood District.

- 1. Highland Park John Eliot Square Neighborhood Design District
- 2. St. James Neighborhood Design District
- 3. Moreland Street Neighborhood Design District
- 4. Mt. Pleasant Neighborhood Design District
- 5. Elm Hill Park Neighborhood Design District
- 6. Lower Roxbury Neighborhood Design District
- 7. Harriswood Crescent Neighborhood Design District

(As amended on May 9, 1996.)
