

## 6 BERKLEY CIRCLE TECHNOLOGY

- All heat zones are on new generation Nest Thermostats, they automatically lower the heat if no motion is detected, and operate on WiFi connectivity for programming and monitoring.
- The Electric Car Charger is network connected and programmable, we get a \$10 discount every month on our HMLP electric bill if car is charged overnight.
- The garage door openers are WiFi enabled and programmable, you can check on them and operate anywhere in the world. Great for vacations or letting a repairman in during the workday.
- These items will be left with the house. They do not require subscriptions, just WiFi networking.
